

New Jersey Psychiatric Association

A District Branch of the American Psychiatric Association

March 11, 2020

Dear Colleagues,

Out of concern for the health of all New Jersey citizens, the NJPA leadership has determined that as a result of the spread of COVID-19 throughout our state, it is the best course of action to cancel the March 21, 2020 CME conference at the New Jersey Hospital Association in Princeton, NJ. While the public health, the health of our members and the protection of the medical workforce is paramount, NJPA also remains committed to delivering quality education. In that spirit, NJPA leadership through its Council on Education will evaluate options for presenting the content of *Psychiatry in 2020: Why Advocacy Matters* later this year.

Please continue to access the [CDC website](#) for the most up-to-date and accurate information on COVID-19. Most importantly, as you work with your patients to address their concerns regarding COVID-19, consider accessing [APA](#) and [AACAP](#) resources.

Thank you for your patience and understanding as we work together as a professional community to address the needs of our members and our patients.

Sincerely,

A handwritten signature in black ink, appearing to read 'Debra E. Koss'.

Debra E. Koss, MD, DFAPA
NJPA President
