Get Your Patient the Help They Need

Are you overwhelmed by your patients' growing mental health needs?

We can help you ensure each of your patients gets access to the care they need.

Join over 700 pediatricians who are using the NJ Pediatric Psychiatry Collaborative (NJPPC).

Gain access to:

- ▷ Consultative support with child and adolescent psychiatrists and care coordination for your patients.
- ▷ Education and training resources.
- ▷ Telepsychiatry for your practice.

Enrollment is free and easy.

Having the resources at the Pediatric Psychiatry Collaborative has enabled me to manage my patients with mental health concerns more efficiently. It has also given me the tools to manage medications for patients with disorders, such as ADHD, both as a team and on my own."

— Melissa Wallach, MD
Pediatrician

- ▷ QI initiatives with ability to earn MOC points

Telepsychiatry for Your Practice

- ▷ Free iPad for members for telepsychiatry evaluations at your office or for curbside consults with child and adolescent psychiatrists

▷ Enroll now:

A mother of a patient, after seeing a child and adolescent psychiatrist via the NJPPC, thanked me for helping her get both a diagnosis for her child as well as a medical and therapy treatment started in a more timely manner than if she had not used the NJPPC."

— Anil Pawa, MD
Pediatrician
Jackson, NJ
